SUCCESSFUL COURAGE CENTER BENEFIT

The Courage Center Ski and Snowboard is a Minneapolis-based, non-profit rehabilitation and resource center that specializes in advancing the lives of people with physical disabilities or visual impairments. In order to raise funds for this specialized program, a Courage Cup Benefit Race was held at Trollhaugen, in Dresser, WI on Saturday, February 7th, 2009.

124 people gathered together to support the Courage Center and raced to raise funds. Teams were encouraged to have a theme and dress accordingly; to the delight of many, most teams did! This was a very spirited bunch, ranging in ages and abilities. Each team was awarded for their feisty efforts, while a raffle and silent auction helped contribute to the fund-raising event.

Because of the Courage Center organizers, the sponsorship of Joe's Sporting Goods, and the racers' participation, this event was a huge success!
